

How to Prepare for an Assignment Check:

Are all of your homework assignments labeled correctly?

Lesson __, page __ # __

Did you mark the problems right or wrong?

Did you correct the problems you missed?

Do you have all of the problems copied down?

Do you have all of the correct answers?

You can check and compare your assignments with a study buddy. If anything is missing, take the time to fix it now.

Assignment Checks look something similar to this:
